RE: Altamont Corridor Vision Phase 1 Improvement Program Inclusion in FASTER Bay Area

Dear Carl, Jim, and Alicia,

The Tri-Valley Career Center is pleased to provide this letter to strongly support the inclusion of \$1.9 billion for the Altamont Corridor Vision Phase 1 Improvements Program as part of FASTER Bay Area. It is our understanding the Silicon Valley Leadership Group, Bay Area Council, and SPUR are working in partnership to have FASTER Bay Area on the November 2020 ballot for Bay Area voters.

The Altamont Corridor that connects the San Joaquin Valley to the Bay Area is one of the most heavily traveled, most congested, and fastest growing corridors in the Northern California megaregion. As I understand it, this congestion will increase an additional 75% between 2016 and 2040. The current use of the Altamont Corridor, by single passenger vehicles is unsustainable. It impacts business and job growth, while putting an undue burden on the Corridor for the sake of businesses throughout the Bay Area region.

To achieve state and regional environmental and economic development goals, a robust passenger rail alternative is needed in the Altamont Corridor to increase mobility by providing a sustainable transportation option, provide greater connectivity, and a better quality of life and access to jobs, educational opportunities and health care facilities.

The Altamont Corridor Vision Phase 1 Improvement Program will provide safe, frequent, and reliable regional rail service by modernizing passenger rail in the Altamont Corridor. The vastly improved infrastructure through the Altamont Pass would be separated from freight, double tracked, grade separated, and enable fast (up to 125 mph maximum speeds), and frequent service. The Altamont Corridor Vision Phase 1 Improvement Program is the first step towards the completion of the Altamont Corridor Vision which is consistent with the 2018 State Rail Plan, 2007 MTC Regional Rail Plan, MTC Resolution 3829 from 2007, and the CHSRA's Altamont Corridor Rail Project.

The Altamont Corridor Phase 1 Improvement Program would:

- Substantially increase regional rail ridership in the Altamont (I-580/I-680) Corridor.
- Reduce the amount of greenhouse gases and air pollution emissions by diverting trips that would have previously been taken by an automobile.
- Reduce congestion on some of the Bay Area's most congested freeways (I-580/I-680 Corridor).
- Promote transit-oriented development throughout the Altamont Corridor.

The transformative Altamont Corridor Vision Phase 1 Improvement Program would have a very positive effect on the Northern California Megaregion's underserved priority and rural communities by providing a convenient and inexpensive alternative to the rising costs of the automobile. Connecting these San Joaquin Valley communities to the Bay Area's large economic centers would increase safe and affordable transportation options between these communities. The Vision would also foster more compact and sustainable growth, providing access to affordable housing and a chance to rebalance the job centers equitably.

We are pleased to provide this letter of strong support of the Altamont Corridor Vision Phase 1 Improvement Program to be included as part of FASTER Bay Area to help move the Bay Area and the Northern California Megaregion forward.

Sincerely,

Sarah Holtzclaw
